

DataFlow

STORAGE SYSTEMS

- ✓ Cost Effective
- ✓ Modular Design
- ✓ Scalable Performance
- ✓ Advanced Security
- ✓ Plug and Play System

MODULAR STORAGE SYSTEMS

DESIGNED WITH DATA CENTERS IN MIND.

Why Data Flow?

01

Modular for rapid deployment

Solutions adapt to meet varying storage needs while maintaining speed.

02

Scalable by design

From 2,000 to over 20,000,000 gallons by design.

03

Plug and Play System

We design it, manufacture it, and ship it for immediate use.

By choosing DataFlow Storage Systems, you can enhance your data center's reliability, security, and scalability while optimizing costs and benefiting from industry-leading support.
